Prepare For Your Future**

## HOW CAN YOU BENEFIT FROM SCHUYLERVILLE'S CAREER EDUCATION PROGRAM?

The Internship Program is an opportunity for senior students to discover new skills and explore the world beyond the classroom. They are encouraged by positive relationships with mentors, acquiring self-esteem, ethics and values, as well as a desire to contribute to society.

- ✓ Non-paid internships
- ✓ Approximately ten weeks
- ✓ Students are excused from school at 12:15 where they sign out at the career office
- ✓ Time spent on-site with mentor
- ✓ Students not required to stay past the school day but can choose to if involved in a project or observation of great benefit

The goal of the program is to allow students to explore the workforce while they are charting their career paths.

## HOW DOES THIS FIT INTO MY COURSE WORK?

- Intern 3 periods of the school day
- Earn three credits towards graduation

### Enrichment instruction includes:

- Resume writing
- Preparing for interviews
- Dressing appropriately for a job
- Marketing yourself at an interview
- Cover letter writing, and much more...

## START YOUR CAREER EXPLORATION

- ▶ Complete and submit an application to the career office; include your resume
- ▶ Get at least two teacher recommendations.
- ▶ Once the application has been reviewed, each student will interview with the career education coordinators.

Additional factors taken into consideration for acceptance into the program are attendance records, motivation to be in the program, and a review of academic progress.

## Get Involved!

**Explore your talent!!**

**Gain experience!!**

**Increase awareness of your interests and abilities!!**

**Try career areas you may pursue in the future!!**

Training will depend on the nature of each placement; it may include observation, completion of tasks assigned by the mentors, shadowing, participating in training sessions and workshops, attending conferences, and other experiences the mentors feel are beneficial to the student.
